

Lecture X - Programming Projects

Programming with Python

Dr. Tobias Vlček

Quick Recap of the last Lecture

Project Ideas

Project 1: Data Analysis and Visualization

Project 2: Web Scraping and Data Collection

Project 3: Machine Learning Model Development

Project 4: Web Application Development

Project 5: AI Chatbot Development

Project 6: Computer Vision and Image Processing

Project 7: Robotics and Automation

Project 8: Scientific Computing and Simulation

Project 9: Game Development with Python

Project 10: Big Data Analytics and Processing
